

# Adopt a Passerine

... a great way for any group or individual to support the  
Hawk Ridge banding program

Duluth is also a concentration point for other migrating birds: passerines (songbirds). When we started our fulltime passerine banding program at Hawk Ridge back in 1996, we were one of only a few banding stations monitoring neotropical migrants in northeastern Minnesota.

Here's an opportunity to get involved in keeping track of "the other" migrants. The program works just like our Adopt-a-Raptor program (only the birds are significantly smaller.) For as little as \$15, you can "adopt" a banded Tennessee Warbler!

Don't delay. The availability of some species is limited. Adoption applications are processed in the order in which they are received. (And yes, it is considered a tax-deductible donation).

\*Note: Species marked with an asterisk are rarely banded. We will keep your application on file until your selection is available.

## Here's what you receive:

- A color photo of your bird species. If you choose one of the rare species marked with an \*asterisk, we'll send you a one-of-a-kind photo of YOUR bird
- A species information sheet which includes distribution, habitat, nesting, foraging behavior, and status at Hawk Ridge (and throughout North America)
- Passerine banding station visiting privileges... a special opportunity open only to our sponsors
- PLUS the satisfaction of knowing you're helping fund important avian research!

SEND FORM & PAYMENT TO:  
Hawk Ridge Bird Observatory  
P.O. Box 3006  
Duluth, MN 55803-3006

## Our "Adoption" List

\$15

Orange-crowned Warbler	Yellow-rumped Warbler
