

Hawk Ridge

ADOPT A Raptor

Now you can participate vicariously in our banding program by “adopting” a raptor after it is banded. For as little as \$25, you can adopt an individual raptor—a unique bird that you, and no one else, will sponsor. You might be the one & only person to adopt a banded Peregrine Falcon or Bald Eagle or Boreal Owl this year!

After the raptor of your choice is banded, you will receive:

1. Adopt packet, including certificate of adoption, color photo, and fact sheets—*please allow 6-8 weeks for processing.*
2. **Request a digital image of your adopt photos at mail@hawkridge.org**
3. \$100 & \$200 levels: a visit to the observation blind at the banding station (advanced reservations required, 218.428.3539)
2. Notification if your bird is recovered (date, location & circumstances)
3. If you adopt your bird while visiting the ridge, you can release it

Northern Goshawk release
